TO: OWNERS AND OPERATORS OF PLACES

TO: PERSONS WHO ORGANIZE EVENTS

TO: PERSONS WHO ATTEND EVENTS

TO: MEDICAL HEALTH OFFICERS

WHEREAS:

- A. On March 17, 2020, I provided notice under section 52 (2) of the *Public Health Act* that the transmission of the infectious agent SARS-CoV-2, which has caused cases and outbreaks of a serious communicable disease known as COVID-19 among the population of the Province of British Columbia, constitutes a regional event as defined in section 51 of the *Public Health Act*;
- B. A person infected with SARS-CoV-2 can infect other people with whom the infected person is in contact;
- C. Vaccines, which prevent or reduce the risk of infection with SARS-CoV-2, have been and continue to be made available in British Columbia;
- D. While substantial progress has been made in vaccinating the population of British Columbia 12 years of age and older, a significant portion of the public is unvaccinated, which is resulting in increases in cases, hospitalizations, and intensive care admissions, primarily in unvaccinated people, although it is also causing illness in vaccinated people. This situation has been exacerbated by the presence of the highly transmissible Delta variant of SARS-CoV-2 in British Columbia.
- E. Unvaccinated persons are at higher risk than vaccinated persons of being infected with SARS-CoV-2 and of transmitting SARS-CoV-2 to other persons.

- F. Evidence is emerging that even people who are vaccinated can be infected with SARS-CoV-2 and can transmit SARS-CoV-2, although this is much less likely than in the case of unvaccinated people.
- G. Various options for establishing vaccine status, including in paper and online format, are readily available to members of the public;
- H. Programs that require that proof of vaccination be provided have been shown to increase vaccination uptake in populations, thereby reducing the public health risk of COVID-19.
- I. Gatherings and events which involve large numbers of people continue to pose a risk of promoting the transmission of SARS-CoV-2, and increasing the number of people who develop COVID-19 and become seriously ill;
- J. I recognize the societal effects, including the hardships, which the measures which I have and continue to put in place to protect the health of the population have on many aspects of life, and, with this in mind, continually engage in a process of reconsideration of these measures, based upon the information and evidence available to me, including infection rates, sources of transmission, the presence of clusters and outbreaks, the number of people in hospital and in intensive care, deaths, the emergence of and risks posed by virus variants of concern, vaccine availability, immunization rates, the vulnerability of particular populations and reports from the rest of Canada and other jurisdictions, with a view to balancing the interests of the public, including constitutionally protected interests, in gatherings and events, against the risk of harm to public health created by gatherings and events and unvaccinated persons;
- K. I further recognize that constitutionally-protected interests include the rights and freedoms guaranteed by the *Canadian Charter of Rights and Freedoms*, including specifically freedom of religion and conscience, freedom of thought, belief, opinion and expression, freedom of peaceful assembly and freedom of association. These freedoms, and the other rights protected by the *Charter*, are not, however, absolute and are subject to reasonable limits, prescribed by law as can be demonstrably justified in a free and democratic society. These limits include proportionate, precautionary and evidence-based restrictions to prevent loss of life, serious illness and disruption of our health system and society. When exercising my powers to protect the health of the public from the risks posed by COVID-19, I am aware of my obligation to choose measures that limit the *Charter* rights and freedoms of British Columbians less intrusively, where this is consistent with public health principles. In consequence, I am not prohibiting outdoor assemblies for the purpose of communicating a position on a matter of public interest or controversy, subject to my expectation that persons organizing or attending such an assembly will take the steps and put in place the measures recommended in the guidelines posted on my website in order to limit the risk of transmission of COVID-19.
- L. This Order does not apply to the Executive Council; the Legislative Assembly; a council, board, or trust committee of a local authority as defined under the *Community Charter*, the *Local Government Act* or the *Islands Trust Act*, and school boards when holding a meeting or public hearing without members of the public attending in person; the distribution of

food or other supplies to people in need; health or social services provided to people in need, such as warming or cooling centres; swimming pools, unless the location of an event; skating rinks when not being used for adult sport; fitness facilities which are part of a hotel or similar establishment; rehabilitation or exercise therapy programs; worship services; health care related events, including immunization clinics, COVID-19 testing centres and blood donation clinics; drug and alcohol support group meetings; court sittings wherever they occur; workers at a workplace when engaged in their work activities, including staff meetings; work camps; before or after school programs for students of public or independent schools (schools); educational activities for students of schools or post-secondary institutions; teachers or instructors at a school or a post-secondary educational institution when engaged in educational activities with their students in any location; language courses; employment related training; the use of any place for local, provincial or federal government purposes; services provided by or on behalf of any level of government;

I have reason to believe and do believe that

- a. the continued presence of large numbers of unvaccinated people in the population, particularly in some age groups and some communities where vaccination rates continue to be low, continues to pose a risk to the health of the population, and constitutes a health hazard. This is because unvaccinated people can be source of viral transmission to other unvaccinated people, and also to vaccinated people who are not completely immune consequent to their vaccination, either because of a reduced immune response or only having had one dose. These infections can result in serious illness, hospitalization, intensive care unit admission for care and death.
- b. it is in the public interest for me to exercise the powers in sections 30, 31, 32, 39, 54, 67 (2) and 69 of the *Public Health Act* **TO ORDER** as follows:

E. DELEGATION OF AUTHORITY TO THE MEDICAL HEALTH OFFICER TO CONSIDER AND MAKE A DECISION WITH RESPECT TO A REQUEST FOR RECONSIDERATION MADE UNDER SECTION 43 WITH RESPECT TO THIS ORDER

Under the authority vested in me by section 69 of the *Public Health Act*, I delegate my authority under section 43 of the *Public Health Act* to the medical health officer for the geographic region of the Province in which a person resides, an event occurs, or a place is located, in order to receive, consider, and make a decision with respect to a request for reconsideration of the application of this Order to that person, that event, or to that place.

F. RELATED MEDICAL HEALTH OFFICERS ORDERS

Recognizing that the risk differs in different regions of the province, and that medical health officers are in the best position to assess local circumstances and to determine whether additional or more restrictive steps need to be taken to reduce the risk of the transmission of COVID-19, **I FURTHER ORDER:**

1. A medical health officer may issue a direction provided for in Part D or an order further to this Order, for the purpose of having the provisions of the direction or the order incorporated into this Order. A direction or order may add further prohibitions, or impose more restrictive limitations or conditions, in the whole or part of the geographic area of the Province for which the medical health officer is designated and, subject to section 2, the provisions of the direction or order are incorporated into this Order when posted on my website. For certainty, a contravention of a direction or order of a medical health officer issued further to this Order, and posted on my website, is a contravention of this Order.
2. While it is in force, a provision in a direction or order made by a medical health officer further to this Order and posted on my website, which adds further prohibitions or imposes more restrictive limitations or requirements than this Order, applies in the whole or part of the geographic area of the Province for which the medical health officer is designated, despite the provisions of this Order.

This Order expires at 12:01 A.M. on January 31, 2022.

You are required under section 42 of the *Public Health Act* to comply with this Order.

Failure to comply with this Order is an offence under section 99 (1) (k) of the *Public Health Act*.

If you fail to comply with this Order, I have the authority to take enforcement action against you under Part 4, Division 6 of the *Public Health Act*.

Pursuant to section 43 of the *Public Health Act*, you may request a medical health officer to reconsider this Order if you:

- (a) have additional relevant information that was not reasonably available to the me or another health officer when the order was issued or varied,
- (b) have a proposal that was not presented to me or another health officer when the order was issued or varied but, if implemented, would
 - (i) meet the objective of the order, and
 - (ii) be suitable as the basis of a written agreement under section 38 [*may make written agreements*], or
- (c) require more time to comply with the order.

A request for reconsideration of this Order on the basis of a medical contraindication made by a person to whom the Order applies must include a signed and dated statement from a medical practitioner, based upon a current assessment, that the health of the person would be seriously jeopardized if the person were to receive a first or second dose of vaccine, and a signed and dated copy of each portion of the person's health record relevant to this statement.

A request under section 43 may be submitted to the Provincial Health Officer at ProvHlthOffice@gov.bc.ca with the subject line "Request for Reconsideration about Proof of Vaccination".

Contents of orders

39 (3) An order may be made in respect of a class of persons.

Duty to comply with orders

42 (1) A person named or described in an order made under this Part must comply with the order.

(2) Subsection (1) applies regardless of whether the person leaves the geographic area for which the health officer who made the order is designated.

Reconsideration of orders

43 (1) A person affected by an order, or the variance of an order, may request the health officer who issued the order or made the variance to reconsider the order or variance if the person

(a) has additional relevant information that was not reasonably available to the health officer when the order was issued or varied,

(b) has a proposal that was not presented to the health officer when the order was issued or varied but, if implemented, would

(i) meet the objective of the order, and

(ii) be suitable as the basis of a written agreement under section 38 [*may make written agreements*], or

(c) requires more time to comply with the order.

(2) A request for reconsideration must be made in the form required by the health officer.

(3) After considering a request for reconsideration, a health officer may do one or more of the following:

(a) reject the request on the basis that the information submitted in support of the request

(i) is not relevant, or

(ii) was reasonably available at the time the order was issued;

(b) delay the date the order is to take effect or suspend the order, if satisfied that doing so would not be detrimental to public health;

(c) confirm, rescind or vary the order.

(4) A health officer must provide written reasons for a decision to reject the request under subsection (3) (a) or to confirm or vary the order under subsection (3) (c).
